Managing trustee BK Nirwair's last message was penned on August 31, 2024. We lost our dear elder brother and guide on September 19, 2024. To honour BK Nirwair, the first page of every chapter of this annual report features a photograph from memory lane. Global Hospital & Research Centre was a project he breathed life into. A project that those who were inspired by him must now take forward.

Dadi Ratan Mohini

Chief Administrative Head
Brahma Kumaris

We are honoured to have entered into a partnership with Oil & Natural Gas Corporation for the upgrade of equipment installed at the units in Mount Abu and Abu Road. This humanitarian service has always attracted support and will continue to do so. The pure intent of the entire team of doctors, nurses and other staff will continue to perform wonders and inspire others to help carry forward the noble cause. Om Shanti.

Mohini Panjabi

Additional Administrative Head
Brahma Kumaris

Healing happens best in an atmosphere of love, respect and compassion. J Watumull Global Hospital and Research Centre has been cultivating this high quality of atmosphere and care for over thirty years. The doctors, nurses and staff are trained in both the science of medicine and in the silence of Rajyoga meditation, allowing them to treat both body and soul. There is a saying “as is the king, so is his kingdom”. The unmatched culture of care and accuracy at Global Hospital emerges from the natural warmth, honesty and commitment to service of the founding medical director, Dr Partap. At a time when the world’s healthcare systems are struggling to comfort and cure those who come to them, Global Hospital continues to flourish and to help those they serve to thrive. I extend you my congratulations and good wishes.

Jayanti Kirpalani

Additional Administrative Head
Brahma Kumaris

Each year we see new facilities and new initiatives spring up at the Global Hospital & Research Centre. It’s wonderful to see how the original vision and commitment of over two decades ago is constantly being developed, expanded and refined. The balance of medical excellence and compassionate care, allopathic and alternative treatments, super-specialism and community healthcare all contribute to making this a very unique and special place for patients and their families, staff and visitors. What enables the members of staff to deliver these services in the way that they do is their practice of meditation and spiritual study and their passion to serve. Congratulations and much appreciation for the truly amazing service the hospital provides every day of the year.

BK Nirwair

Managing Trustee
Global Hospital & Research Centre

Secretary-General
Brahma Kumaris

Hosting the honourable Prime Minister Narendra Modi for the launch of the Global Institute of Health Sciences, a super-speciality hospital at Abu Road, was the biggest highlight of 2023. Another achievement was the commissioning of a Magnetic Resonance Imaging (MRI) machine at the Radha Mohan Mehrotra Global Hospital Trauma Centre, Abu Road, Sirohi district's first such facility, with support from two of India's biggest public sector brands. We are now in the throes of planning the new hospital at Abu Road. I welcome expressions of interest to support this noble task. Congratulations to all the trustees, doctors, nurses and support staff for your continued commitment to delivering exemplary health services.

BK Nirwair

20.11.1938 - 19.9.2024

A heartfelt tribute

Brahma Kumar Nirwair was a remarkable individual. A royal soul who graced our lives with his magnanimous presence. His spirit was a beacon of light, a testament to what it means to be genuinely caring and giving.

It is hard to put into words the profound impact he had on those who came in contact with him. From the moment you met him, you felt embraced by warmth. It didn't matter who you were or where you came from. He welcomed you with open arms and an open heart. He had the extraordinary ability to make everyone feel valued and loved. As his name suggested, he was a friend to all and an enemy to none.

Bhai'sahab, as he was lovingly called, brought people together with his kindness and compassion. It was in his nature to uplift others, to share what he had and to give without expecting anything in return. His laughter was contagious. He offered timeless wisdom, guidance and support.

As we remember his legacy, let us carry forward the lessons he taught us. Let us be more caring, more giving and more open-hearted. In a world that can sometimes feel divided, let us honour his memory by embodying his spirit of friendship and acceptance. Though he may no longer walk among us in physical form, he will always look out for us from beyond and his teaching will forever shine in our heart. Let us celebrate a life well-lived, a royal soul who will be dearly missed and never forgotten.

Dr Partap Midha

Medical Director
J Watumull Global Hospital &
Research Centre

Managing Trustee
Global Hospital & Research Centre

Commissioning an extra floor at the Radha Mohan Mehrotra Global Hospital Trauma Centre, housing two operating rooms, a central sterile supply department and 40 beds for the community was a highlight of the year. Much gratitude to chairman emeritus, Larsen & Toubro, A M Naik and his family for sponsoring this extension called 'Nirali'.

We commissioned an MRI facility with support from the Oil and Natural Gas Corporation Limited and THDC India Limited, also within this unit.

Gratitude is also due to the Lalji Mehrotra Foundation for sponsoring a 150 kWp grid interactive solar power plant at the Radha Mohan Mehrotra Global Hospital Trauma Centre.

Also, the Rotary Club of Cupertino (D5170), California, USA, and the Rotary Club of Ahmedabad Riverfront (D3054) supported an equipment upgrade at the Rotary International Global Hospital Blood Bank, within the aforementioned unit.

I'm equally grateful to Australian Friends for Global Hospital (AF4GH) for contributing to sustain our community outreach services as well as my overseas visit to Australia.

NewSpace India Limited, the commercial arm of the Indian Space Research Organisation, came onboard to sponsor a mobile clinic.

Hundreds of patients continue to be served during the year by the visiting specialists Dr Vinod Abichandani, endocrinologist and diabetologist from Ahmedabad, and Dr Swapan Gupta, associate professor, Department of Neurology, GB Pant Institute of Postgraduate Medical Education & Research, New Delhi. Their commitment to further health services in small town India is laudable.

We are now fully immersed in planning the new super-speciality hospital at Abu Road, a unit that will offer cardiology, gastrology, nephrology, neurology, neurosurgery and pulmonology. Do connect with me if you are interested in helping us take forward this dream of our beloved elder brother and mentor, Brahma Kumar Nirwair.

Outreach by consultant, gynaecologist and infertility specialist Dr Piyushi Sharma is helping to deliver speciality services to communities across district Sirohi

Community outreach

Three mobile clinics staffed by a doctor-driver-assistant team serve a population of about 160,000 in ~80 villages of district Sirahi.

This activity is called the Community Service Project. It targets an area that is underserved by the government health infrastructure.

Collectively, these clinics served 40,093 villagers during the year.

These graphs show the disease distribution and age distribution of the patients seen by the outreach clinics

Specialist's consultation programmes

Outreach activities also included creating opportunities for people living in towns in the district (Sirahi) and in adjoining districts to consult the hospital's specialists nearer their home. Senior consultant ENT surgeon Dr Sharad Mehta; urologist, urooncologist and renal transplant surgeon Dr Vaibhav Vishal; consultant orthopaedics & joint replacement surgeon Dr Kailash Kadel, consultant general & laparoscopic surgeon Dr Kamal Joshi, consultant ophthalmologist Dr Sudhir Singh, and gynaecologist and infertility specialist Dr Piyushi Sharma made themselves available for such programmes were mostly held in government schools, premises of

A training programme in progress at Modern Insulators, Abu Road

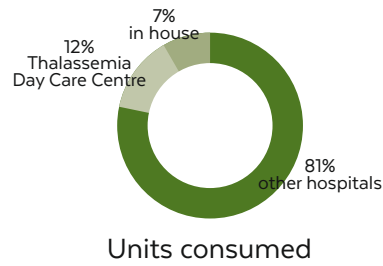

Dr Anil K Bhansali, medical superintendent & chief consultant surgeon, sees a patient

Rotary International Global Hospital Blood Bank

The Rotary International Global Hospital Blood Bank collected 6,965 units of blood from 6,568 male donors and 397 female donors.

Twenty six blood donation drives yielded 52% of these units while the remaining were collected within the premises.

The blood was processed into 14,545 units of whole blood, packed cells, fresh frozen plasma, platelets and cryoprecipitate. 13,686 units of these were issued to 3,821 patients, 22% for free.

BK Karuna, chief of multimedia, Brahma Kumaris, presents a blood donor with a certificate as Global Hospital & Research Centre trustee Dr Banarsilal Sah looks on

Community outreach

The main outreach activity was creating opportunities for people living in towns in the district and in neighbouring districts to consult the hospital's specialists at a venue near their residence.

Consultant orthopaedic & joint replacement surgeon Dr Nithin Sunku, physician Dr Sumeru Patil, resident medical officer Dr Prem Singh, senior clinical associate Dr Giriraj Sharma and dental surgeon Dr N S Girish made

themselves available for such programmes, which were held in the premises of not-for-profits, schools, corporations and the North Western Railways.

Outreach activities also included training on subjects like cardiopulmonary resuscitation and diagnostic screening programmes such as for bone mineral density, hypertension and diabetes.

Community outreach

Community teams from the Global Hospital Institute of Ophthalmology, Abu Road, screened 11,658 people at 87 screening events, 5,093 people got their eyes tested, 1,189 people were referred for surgery, 1,184 eventually underwent surgery.

Eye check in progress

Case study

Laxmi Devi, age 42, lives in Udd Bhil Vas, Sirohi.

Laxmi became blind early in life. This caused her husband and two young sons much hardship. Her sons tried to help with the housework.

Poverty and ignorance kept Laxmi away from a medical facility... until Global Hospital organised an eye screening programme in her village.

Laxmi's neighbours urged her to consult the visiting team. She was found to have mature senile cataract in both her eyes. She could only sense hand motion in her right eye and perceive light in her left eye.

Laxmi was taken to the Global Hospital Institute of Ophthalmology for the operations and dropped back home. Her postoperative vision in both eyes was 6/18. With her vision restored, Laxmi felt as if she had gotten back her life.

Community outreach

Community teams screened 7,902 people at 44 screening events, 2,700 people got their eyes tested, 1,109 people were referred for surgery, 1,013 eventually surgery.

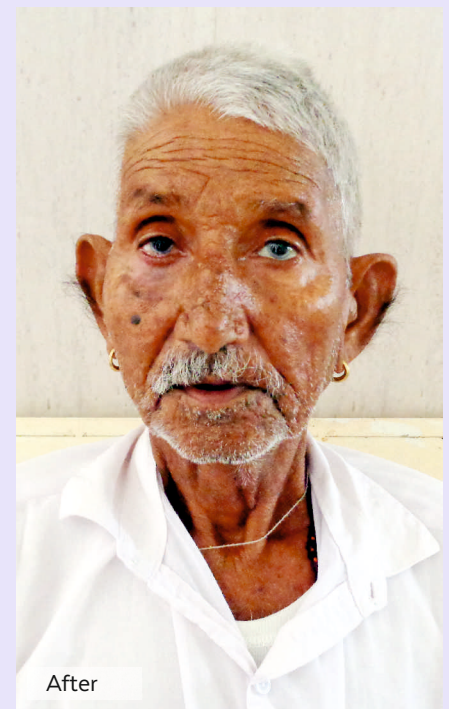

Operated patients before being dropped home

Case study

Taga Ram, a 69-year-old resident of village Sutharo Ka Was, in block Rewat, Jalore, could count fingers up to a distance of three metres but could not see more. His vision was compromised by cataract in both of his eyes. His right eye was first operated on for no charges, after which he regained his sight (6/60). Taga Ram was very grateful for the service.

Before

After

Vision Centres

Vision centres are small clinics/outposts providing eye checks and minor ophthalmic procedures, and referring more serious patients to the base hospital.

The trust runs five vision centres, attached to the Global Hospital Institute of Ophthalmology. These are located in Raniwada (district Jalore, since 2010), Kalandri (district Sirohi, since 2011), Pindwada (district Sirohi, since 2016), Reodar (district Sirohi, since 2022), and Sayla (district Jalore, since 2022).

The five centres collectively saw 8,602 out-patients, performed 5,494 refractions, prescribed 5,009 spectacles and dispensed 4,710 spectacles.

Vision centres offer eye checks as well as spectacle-related services

Shivmani Geriatric Home

The Shivmani Geriatric Home at Abu Road is the residence of choice of more than 85 elderly men and women.

Senior citizen residents enjoy a game

G V Modi Rural Health Care Centre

This clinic located in Abu Road served 184 walk-in patients and another 521 patients in the Shivmani Home. Six bone mineral density screening programmes saw 636 people step in for checks.

The face to face counselling facility served 195. The beneficiaries of online counselling numbered 13,552.

Dr Mahesh Hemadri, medical officer & incharge, G V Modi Rural Health Care Centre delivers a lecture on ageing

Global Dialysis Centre & Brigadier Vora Clinic

A dialysis centre and a pharmacy were commissioned during the year at this unit in Vadodara.

Health consultations numbered 850 and spanned general health, dermatology, gynaecology, orthopaedics and pulmonology.

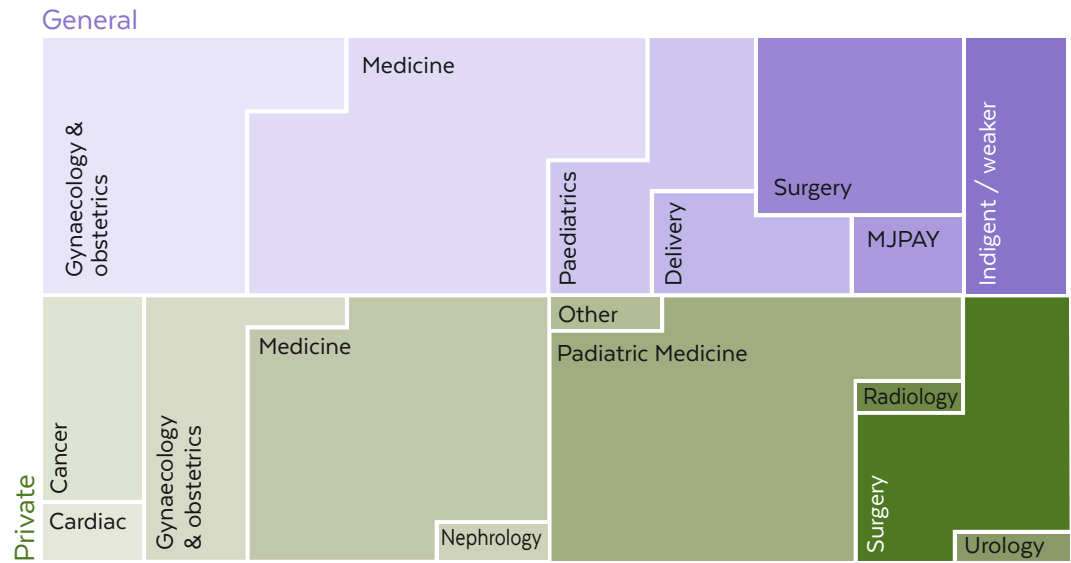

A health consultation in progress in the new clinic cum dialysis facility

BSES MG Hospital

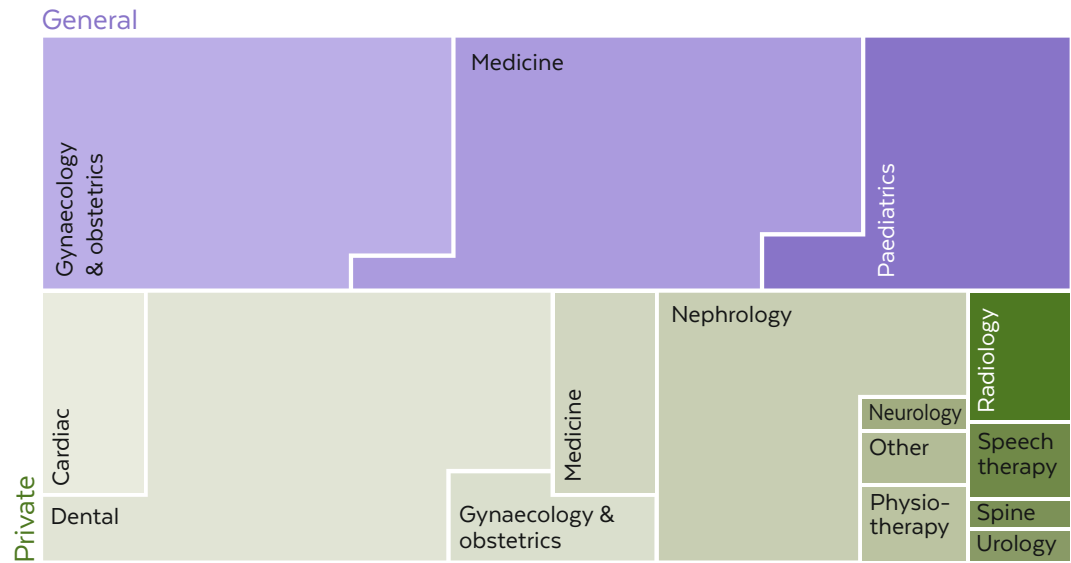

Out-patients

12,131 general and 31,142 private patients consulted the doctors.

Admitted patients

2,042 general and 5,838 private patients were admitted, across the array of private rooms, sharing rooms, wards and intensive care unit.

Case study

A preterm baby weighing 900 gms was tenderly and successfully cared for by the NICU team led by Dr Sushanta Pai over three months. Ventilator support and blood transfusions were part of the treatment.

DNB ophthalmology candidate Dr Ravinshu Hooda examines a patient using a slit lamp

Diploma and degree in optometry

Global Hospital Institute of Ophthalmology offers a two-year diploma and a four-year degree in optometry in association with Singhania University.

Three students are pursuing the diploma course while 11 students are enrolled for the degree programme. Another five students are pursuing the graduate programme by lateral entry.

A student checks a patient's vision

A student checks a patient's intra ocular pressure

Observerships

J Watumull Global Hospital & Research Centre provides students of various disciplines of medicine (and qualified medical and para-medical professionals) the opportunity to undergo observerships.

Observers are exposed to the working of one or more departments, including staff interactions with patients as well as their handling of equipment. Last year, the hospital hosted 14 observership candidates:

Dr Sanya Goyal, a resident of Swaroopganj who has just acquired a graduate degree in dentistry from Darshan Dental College & Hospital, Udaipur, underwent an observership in the Department of Dentistry, from May 19 to July 19.

Siddhi Singh from Maharashtra is in the second year of a graduate programme in law and business administration at the IIM, Rohtak. She pursued an internship from August 1 to 10.

Dr Renu Gupta, a resident of Mt Abu with a graduate degree in medicine from the Government Medical College, Vadodara, underwent an observership from July 24 to August 31.

Meenal from Mohali, Punjab, holds a graduate (honours) degree in psychology from MCM DAV College for Women, Chandigarh. She underwent an internship in psychology from July 1 to 31.

Divya from Delhi holds a diploma course in medical laboratory from the Capital University, Jharkhand. She trained in the pathology laboratory from June 1 to August 12.

Shivam Rajora from Delhi is pursuing a diploma course in medical laboratory from Capital University, Jharkhand. She trained in the pathology laboratory from June 27 to August 12.

Vasim Khan from Sirohi is enrolled in a graduate programme in nursing and midwifery at the Mayurakshi School of Nursing, Jodhpur. He underwent an observership under the Department of Nursing at the Radha Mohan Mehrotra Global Hospital Trauma Centre from September 19 to October 17.

Tanya Bhargava, a premedical student from Chicago, USA, signed up for clinical exposure

in a variety of departments from October 24 to 31.

Dr Sripurna Dutta from Nadia, West Bengal, is in the third year of a postgraduate course in general surgery at the Bangalore Medical College & Research Institute, Bengaluru. She underwent an observership in the Department of Surgery from April 9 to 30.

Uttam Singh, a resident of district Sirohi, is studying homeopathic medicine & surgery at Madhav University, Pindwada. He underwent an observership in the wards and Intensive Care Unit at the Radha Mohan Mehrotra Global Hospital Trauma Centre from October 12 to February 11.

Manoj Kumawat, a resident of district Sirohi, is pursuing a graduate degree in ayurveda medicine and surgery at the Kala Ashram Ayurved Medical College & Hospital, Udaipur. He underwent an observership in the Intensive Care Unit and Casualty Unit at the Radha Mohan Mehrotra Global Hospital Trauma Centre from August 25 to February 25.

Celine Sofie Lassenius from Copenhagen, Denmark, holds a graduate degree in Food & Nutrition. She underwent an observership in the Department of Dietetics from November 22 to December 9.

Meghna Trivedi from Mt Abu holds a graduate degree in ayurveda medicine and surgery from the Kala Ashram Ayurved Medical College & Hospital, Udaipur. She underwent an observership in the wards from May 27 to June 3.

Palak Choudhary from Mt Abu is a second year student of microbiology at the P D Patel Institute of Applied Sciences, Gharotar. She trained in the pathology laboratory from June 3 to 15.

Budding medical laboratory technicians Divya Rana and Shivam Rajora from Delhi pursued an observership in the pathology laboratory; seen here with the lab staff

People & quality

Governing Board

The Global Hospital & Research Centre trust is registered with the Charity Commissioner of Greater Mumbai. The trust is represented by nine unrelated trustees from diverse walks of life, including:

BK Nirwair

BK Nirwair is a visionary leader with exemplary drive, dedication and meditative qualities, an inspiration for many employees of the trust.

Mahesh Patel

Mahesh Patel is a chartered accountant and businessman with a chain of care homes in the UK. His family helped support the hospital's Shivmani Geriatric Home.

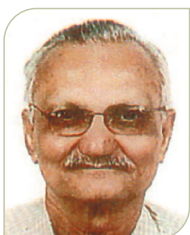

Dr Partap Midha

Dr Partap Midha worked for the government of Haryana, gaining an understanding of grassroots health needs. He is responsible for the trust units at Mount Abu and Abu Road.

Kishore D Shah

Kishore D Shah is a retired businessman. He was instrumental for aggregating the land on which the flagship hospital is constructed.

Jeetendra G Mody

Jeetendra G Mody is a civil engineer with five decades of experience. He has helped implement projects involving construction.

BK Yogini

BK Yogini manages 22 Rajyoga centres of the Brahma Kumaris in Mumbai. At BSES MG Hospital, she is honorary director, Administration.

Dr Banarsi Lal Sah

Dr Banarsi Lal Sah is honorary treasurer of the trust. Dr Banarsi is executive secretary of the Medical Wing, Rajyoga Education & Research Foundation.

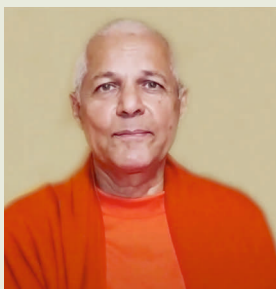

Rashmikant Acharya

Rashmikant Acharya brings three decades of global finance and technology experience managing teams of multinational corporations in 40 countries. Previously, he was with Indian Space Research Organisation. He is an alumnus of Indian Institute of Management, Bangalore; ESADE Business School, Barcelona and London Business School, UK.

Dr Rajagopala Reddy

Dr Rajagopala Reddy has 40 years of experience in the pharmaceutical industry, including 30 years of running a bulk pharma ingredients manufacturing unit. He holds a doctoral degree in medicinal chemistry from the University of Pune and a post doctoral degree in biotechnology from the University of Wisconsin, USA.

“ Thrilled to see the selflessness of the staff of the hospital. The smile on their faces tells us a lot about the services of the hospital. May Babaji bless all of them with great health!

External training / skill development events

Fourteen staff members were supported to attend 16 external conferences. Five staff members were supported to attend four external training programmes.

A training session in progress

Very much liked the hospital design - it is a spiritual resort. Nature is manifesting within. Lot of sunlight within, a lot of free space within, the corridors are spacious, the hospital is very clean with a spiritual ambience.

Dr Laxmidhar Behera
Director, Indian Institute of Technology, Mandi

Accreditation with the National Accreditation Board for Hospitals & Healthcare Providers

J Watumull Global Hospital & Research Centre achieved a significant milestone in June 2023, obtaining National Accreditation Board for Hospitals & Healthcare Providers (NABH) accreditation, valid through to May 31, 2027.

The accreditation is based on the 5th NABH edition standards comprising 10 chapters, 100 standards, and 651 objective elements. The elements are categorised into Core (102), Commitment (459), Achievement (60) and Excellence (30) levels.

The preparatory process saw the hospital implement 280 Standard Operating Procedures (SOPs)/policies, 35 clinical guidelines, 10 clinical procedures, an apex manual, drug formulary and other documents. Notably, the hospital has initiated an antibiotic stewardship programme to optimise the use of antibiotics, aligning with current healthcare best practices.

Risk management principles, particularly addressing risks identified through incident analysis, have been integrated into the hospital's operations. International Patient Safety Goals inform patient safety protocols and help minimise adverse events.

To ensure continuous improvement, the hospital has created 12 committees dedicated to addressing issues, conducting root cause analysis (RCA) and implementing corrective and preventive actions (CAPA). Regular quarterly and bi-monthly interdepartmental audits further strengthen internal processes and operational efficiency.

Also, a comprehensive yearly training calendar is maintained, encompassing NABH sensitisation, infection control practices, occupational hazards and patient rights. These initiatives ensure that staff members are equipped with the necessary skills and knowledge to consistently deliver high-quality care.

During the term of the present accreditation, the hospital will undergo rigorous assessments to reaffirm its adherence to quality standards. In particular, the next surveillance inspections will evaluate the hospital's commitment to meet the Achievement and Excellence level standards. The hospital continues to engage in two quality improvement projects annually, reinforcing its commitment to advancing healthcare delivery and patient outcomes.

The assessors interacted with the hospital staff

Stakeholders

Working with the government, organisations that have empanelled the hospital to deliver health services to their employees, and donors.

The state government / Mukhyamantri Ayushman Arogya Yojana

The Global Hospital & Research Centre trust partners the Government of Rajasthan to implement the Mukhyamantri Ayushman Arogya (MAA) Yojana, a state-sponsored health insurance scheme for the poor. Beneficiaries are eligible for free treatment upto Rs 500,000 in affiliated hospitals. Both J Watumull Global Hospital & Research Centre and the Radha Mohan Mehrotra Global Trauma Centre are affiliated hospitals. At the former, 1,872 patients were admitted over the course of the year while 3,716 patients took benefit at the latter.

Case study

Sukiya Devi, age 47, had suffered from abdominal pain and swelling ever since she had undergone a hysterectomy and hernia repair five years ago. When her complaint suddenly increased in intensity, and she lost her appetite, she approached consultant general & laparoscopic surgeon Dr Kamal Joshi. Investigations showed that she had a hernia of the abdominal wall. Dr Joshi performed a right iliac fossa incision hernia repair with a preperitoneal meshplasty. Sukiya recovered very well.

The central government / National Tuberculosis Elimination Programme

India has the largest share of the global tuberculosis burden. Studies show that people with tuberculosis in rural India stay infectious for twice as long as infected people in urban India. So, speeding up the diagnosis and commencement of treatment of tuberculosis patients in rural India would help contain the spread of disease.

The Global Hospital & Research Centre trust partners the central government for the implementation of the National Tuberculosis Elimination Programme, previously called the Revised National Tuberculosis Control Programme, the country-wide initiative to reduce the burden of tuberculosis by 2025, five years ahead of the Sustainable Development Goals.

The government partially reimburses the cost of diagnosing suspect-patients and monitoring confirmed patients through the course of treatment. The government also provides the WHO-prescribed medication for no charges.

Field workers attached to the Community Service Project implement this project. Last year, they collected 709 sputum samples, of which 172 tested positive. In all, 105 patients completed the treatment regimen, of whom 102 were declared tuberculosis free. 27 patients were referred. The field workers also distributed nutritional supplements to the patients to boost their immunity and reduce the chance of a relapse. Contributions from GiveIndia helped to cover this cost.

Field worker Jyoti Kumar distributes supplements to a TB patient in village Boribuj

The central government / National Programme for Control of Blindness

J Watumull Global Hospital & Research Centre, Global Hospital Institute of Ophthalmology and the Shri Adinath Fateh Global Eye Hospital implement the National Programme for Control of Blindness, the central government's initiative to eradicate preventable blindness occurring from diseases like cataract. Government estimates suggest that thousands of people with mature cataracts in Rajasthan and other states need surgical intervention. To treat these people, the central government has partnered with private health providers like the Global Hospital & Research Centre trust.

Partners conduct screening programmes in villages to identify needy patients, provide them transport to the base hospital, operate on them and drop them back home. The government pays a part of the cost of such cataract operations. These activities have been separately reported under each unit.

Collectively, these units performed 923 operations on patients covered by the District Blindness Control Society Jalore and 1,105 operations on patients covered by the District Blindness Control Society Sirohi.

Bhuribai Choudhary, age 79, a widow, a petty farmer from district Bali, regained vision in her left eye

Organisations that have empanelled the hospital to care for their employees

J Watumull Global Hospital & Research Centre has been enlisted as a treatment centre for beneficiaries of the Employees State Insurance Corporation (ESIC). Last year, 268 employees of commercial establishments claimed the cost of their treatment in the out-patient department, and 77 employees who were hospitalised claimed their treatment cost. Most beneficiaries of the ESIC are employees of hospitality establishments in the town.

J Watumull Global Hospital & Research Centre is also an empanelled private hospital to deliver allopathic and AYUSH medicare to former service personnel and their dependents, under the Ex-Servicemen Contributory Health Scheme (ECHS). Twelve patients were admitted in this category last year.

J Watumull Global Hospital & Research Centre is an empanelled hospital for the treatment of employees (stationed at Mt Abu) of

the Central Reserve Police Force, Physical Research Laboratory, Bhabha Atomic Research Centre, Armed Forces, All India Radio, Central Public Works Department and Kendriya Vidyalaya.

Radha Mohan Mehrotra Global Hospital is enlisted as a private

treatment provider for retirees and serving employees of the North Western Railways and their dependents. Last year, 305 retirees and 95 serving employees availed of the out-patient services while 102 retirees and 28 serving employees were admitted.

Jagsi Ram, age 44, suffered generalised tonic-clonic seizures as a result of which he fell and injured his right upper eye. This incident happened at his workplace, a hotel in Mt Abu. Jagsi was rushed to the Global Hospital, where he was assessed and treated.

“Excellent facility in this area. Very well set up with a great outreach programme. People of this area are lucky to have such a facility. I would be happy to contribute in any way to the hospital both professionally and through technical support.

Dr Goverdhan Dutt Puri
Executive Director
All India Institute of Medical Sciences, Jodhpur

Caring Beyond Work Wellness at the Heart of Our Success

Comprehensive Health Check-ups and Preventive Care

At Hotel Hilltone, we prioritize our employees' well-being through regular health check-ups and vaccination drives.

Mental Health and Emotional Support

Recognizing the importance of mental well-being, we offer monthly counseling services and stress management workshops.

Holistic Wellness and Nutrition

Our cafeteria promotes healthy eating habits by offering a specially curated nutritional menu.

Access to ESI-Empanelled Healthcare

Through our partnership with Global Hospital, an ESI-empanelled institution, employees benefit from seamless access to government health schemes.

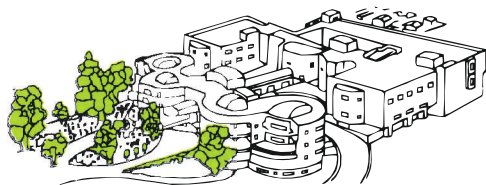

Critical Health Support and Emergency Care

Global Hospital has been a reliable partner during critical health situations, offering timely and lifesaving support for guests and employees'.
